SPORT

DISKY.SK
by PRORACING®

"RR40 is much more than a wheel: it is a contemporary tribute to Rally Racing, an icon that has shaped the history of Motorsport.
Since 1986, when OZ first introduced Rally Racing to the world of competition, this design has embodied a unique and revolutionary style, becoming synonymous with strength, character, and victory.
It was with this wheel that we achieved our first World Rally Championship title in 1990, and from that moment on, its unmistakable design has spanned 40 years of Motorsport, remaining a protagonist both on racetracks worldwide and in the aftermarket.
With RR40, we celebrate a technical and stylistic legacy that continues to define our racing DNA."
